

ABLESTIK 24

March 2020

PRODUCT DESCRIPTION

LOCTITE ABLESTIK 24 provides the following product characteristics:

Technology	Epoxy
Appearance	Water clear
Components	Two components - requires mixing
Mix Ratio, by weight Part A: Part B	100 : 28
Product Benefits	<ul style="list-style-type: none">• Two component• Low viscosity• Room temperature cure• Easy mixing• Flexible• Resilient bonds between materials with mismatched CTEs
Operating Temperature - Continuous	90 °C
Operating Temperature - Intermittent	120°C
Cure	Room temperature cure
Application	Assembly, Non electrically conductive adhesive
Key Substrates	Most metals, Ceramics, Polystyrene, Polysulfone, Polycarbonate and Rigid plastics

LOCTITE ABLESTIK 24 is recommended for joining transparent materials, such as glass, and where a thin bond line is desired. This adhesive can withstand continuous exposure at temperatures as high as 90°C and short term exposures up to 120°C.

TYPICAL PROPERTIES OF UNCURED MATERIAL

Mixed Properties

Mixed Viscosity @ 25 °C, mPa·s (cP)	800
Pot life @ 25°C, 50 gram quantities, minutes	30
Shelf Life - See C of A or Label on packaging	
Flash Point - See SDS	

TYPICAL CURING PERFORMANCE

Cure Schedule

1 to 3 hours @ 25°C

Full properties are developed in 16 to 24 hours.

The above cure profiles are guideline recommendations. Cure conditions (time and temperature) may vary based on customers' experience and their application requirements, as well as customer curing equipment, oven loading and actual oven temperatures.

TYPICAL PROPERTIES OF CURED MATERIAL

Physical Properties

Thermal Conductivity, W/(m·K)	0.2
Coefficient of Linear Thermal Expansion, ppm/°C	60

Electrical Properties

Volume Resistivity @ 25°C, ohm-cm	1×10 ¹⁴
Dielectric Strength, ASTM D149, kV/mm	16.5

TYPICAL PERFORMANCE OF CURED MATERIAL

Shear Strength

Tensile Lap Shear Strength,	N/mm ²	12
	(psi)	(1,740)

GENERAL INFORMATION

For safe handling information on this product, consult the Safety Data Sheet, (SDS).

DIRECTIONS FOR USE

1. Complete cleaning of the substrates should be performed to remove contamination such as oxide layers, dust, moisture, salt and oils which can cause poor adhesion or corrosion in a bonded part.
2. Clean up solvent is alcohol, acetone, or methyl ethyl ketone (MEK).
3. Vapor de-greasing is satisfactory.
4. Roughening of the surfaces will improve bond strength.
5. Accurately weigh resin and hardener into a clean container in the recommended ratio. Weighing apparatus having an accuracy in proportion to the amounts being weighed should be used.
6. In small quantities, a 4:1 ratio by weight or 3:1 ratio by volume is acceptable.
7. Mix thoroughly.
8. Coat both surfaces to be joined with as thin a layer of adhesive as possible and join together.
9. In most applications only contact pressure is required.

Not for product specifications

The technical data contained herein are intended as reference only. Please contact your local quality department for assistance and recommendations on specifications for this product.

STORAGE:

Store in original, tightly covered containers in clean, dry areas. Storage information may be indicated on the product container labelling.

Optimal Storage : 18 to 25°C

Material removed from containers may be contaminated during use. Do not return product to the original container. Henkel Corporation cannot assume responsibility for product which has been contaminated or stored under conditions other than those previously indicated. If additional information is required, please contact your local Technical Service Center or Customer Service Representative.

Disclaimer

Note:

The information provided in this Technical Data Sheet (TDS) including the recommendations for use and application of the product are based on our knowledge and experience of the product as at the date of this TDS. The product can have a variety of different applications as well as differing application and working conditions in your environment that are beyond our control. Henkel is, therefore, not liable for the suitability of our product for the production processes and conditions in respect of which you use them, as well as the intended applications and results. We strongly recommend that you carry out your own prior trials to confirm such suitability of our product. Any liability in respect of the information in the Technical Data Sheet or any other written or oral recommendation(s) regarding the concerned product is excluded, except if otherwise explicitly agreed and except in relation to death or personal injury caused by our negligence and any liability under any applicable mandatory product liability law.

In case products are delivered by Henkel Belgium NV, Henkel Electronic Materials NV, Henkel Nederland BV, Henkel Technologies France SAS and Henkel France SA please additionally note the following:

In case Henkel would be nevertheless held liable, on whatever legal ground, Henkel's liability will in no event exceed the amount of the concerned delivery.

In case products are delivered by Henkel Corporation, Resin Technology Group, Inc., or Henkel Canada Corporation, the following disclaimer is applicable:

The data contained herein are furnished for information only and are believed to be reliable. We cannot assume responsibility for the results obtained by others over whose methods we have no control. It is the user's responsibility to determine suitability for the user's purpose of any production methods mentioned herein and to adopt such precautions as may be advisable for the protection of property and of persons against any hazards that may be involved in the handling

and use thereof. In light of the foregoing, **Henkel Corporation specifically disclaims all warranties expressed or implied, including warranties of merchantability or fitness for a particular purpose, arising from sale or use of Henkel Corporation's products. Henkel Corporation specifically disclaims any liability for consequential or incidental damages of any kind, including lost profits.** The discussion herein of various processes or compositions is not to be interpreted as representation that they are free from domination of patents owned by others or as a license under any Henkel Corporation patents that may cover such processes or compositions. We recommend that each prospective user test his proposed application before repetitive use, using this data as a guide. This product may be covered by one or more United States or foreign patents or patent applications.

Trademark usage

Except as otherwise noted, all trademarks in this document are trademarks of Henkel Corporation in the U.S. and elsewhere. ® denotes a trademark registered in the U.S. Patent and Trademark Office.
