BERGQUIST GAP PAD TGP 18000SF

The latest in thermal technology from Henkel, TGP 18000SF is a high performance Gap Pad. This silicone free solution provides a thermal conductivity of 18 W/m-k and due to its unique filler composition it provides excellent performance under standard pressures.

[Enquire Here](#)

THERM-A-GAP PAD 80LO

The latest in electronic thermal management from Chomerics. THERM-A-GAP PAD 80LO is a 8.0W/m-k, high performance Thermal Gap Filler. Pad 80LO provides a long term solution across computing, aerospace and automotive industries.

[Request A Quote](#)

Permabond UV643 (50ml)

A fast curing UV-curable adhesive, that provides a tack-free solution. Capable of bonding a multitude of thermoplastics, it works effectively under hot or wet conditions.

UK Gasket and Sealing Association Member 2025

For 2025 HITEK are members of the UK Gasket and Sealing association (UKGSA). The UKGSA represent companies in the conversion of materials into gaskets and seals for all types of industrial use.

We are proud to be members for another year!

Raising money

In November we raised money for a local charity called The Blue Door. This amazing charity helps keep people free from abuse and violence. To learn more about this cause, visit their website below

A Spooky Charity Day

At HITEK scary season is always a special time of the year. This year Halloween was very special as staff dressed up for charity!

Behind all the tricks and ghoulish outfits was some cake based treats. With every piece of cake sold HITEK raised money for the British Legion.

In total HITEK raised £149.31 for such a fantastic cause.
